

# What others are saying:

I have worked with Beth with every one of my agility dogs and she has been instrumental in holding me accountable to the fundamentals of my agility training and helping me develop my teamwork with every one of my dogs. She is not only an excellent instructor; she is enjoyable to work with and always inspires you to push past what is comfortable to improve your performance.

**Kimberly Line-Berget**

---

Beth is an exceptionally skilled dog trainer. Her years of experience with numerous breeds give her the ability to observe and understand dog behavior. She continues to learn and willingly shares what she learns. Beth has the ability to clearly explain information. She treats people and dogs with respect. Beth's instruction and encouragement have helped me immensely. I highly recommend training with her!

Connie Bachhuber

---

Among Beth's many talents as an instructor, her greatest is probably her ability to adapt to the abilities and needs of each individual team. She's great at analyzing what's working for you and your dog and what's not and always seems to come up with new exercises to keep training fun and engaging. What works for a Border Collie isn't necessarily going to work for a Pointer and Rookie and I owe much of our success in the ring to Beth's instruction and constant encouragement, not to mention her endless patience.

Joan Schmeling

I have taken classes with Beth on and off for 10 years and with four different dogs. I marvel each time I bring a new dog to class at how she is able to see the needs each dog and helps me communicate in the clearest way possible what is required by that individual dog. Beth's classes have a wonderful relaxed atmosphere but she is always attentive to the safety of both handlers and dogs which I appreciate greatly. Beth teaches handling skills that are invaluable to a successful and rewarding partnership between handler and dog. There is not a student who takes her class that does not strive to do their best when it is their turn to run and there is nothing at the end of class quite like having Beth say, "Good job today!" To have a great teacher guide you is a great gift and Beth is just that. Thanks Beth!
